

2022 DUST INHIBITOR APPLICATION

Montgomery County Public Works
P.O. Box 663, 217 E. Myrtle Room 203
Independence, KS 67301

In an effort to provide relief from dusty roads to residents of Montgomery County, we have established a program whereby residents pay to apply a dust inhibitor treatment of magnesium chloride (Dust Gard).

The resident's cost for a single application will be at a minimum of 300 linear feet @ \$1.30 per linear foot (tax included). Payment must be received in the Public Works Office by Thursday, April 28, 2022. Applications will not be accepted after this date.

Any resident that would like Dust Gard, must complete the request form below and pay the total amount in advance to the Montgomery County Public Works Department. Residents are required to mark the area to be treated (flags, post, etc.) showing the starting and ending points of the application beginning at a specified reference point. The total feet of Dust Gard must be continuous per request area. The Dust Gard is applied using computerized control units that measure the number of feet. The driver will shut the unit off when the meter reaches the number of feet ordered even if the number of feet marked is greater.

Dust Gard is expected to be applied between May 1st and June 30th, based upon weather conditions, availability of the materials, and scheduling, as determined by the County.

Montgomery County will maintain the roadway, as it deems necessary, regardless of application of Dust Gard. This includes periodic grading.

PLEASE NOTE: This material is a dust inhibitor and is designed to help control dust. It will not eliminate all dust. The effectiveness of the Dust Gard may vary with the weather conditions and traffic flow. The County will not be held accountable for its performance.

Form with two columns: TOTAL FOOTAGE (18 FT WIDTH, 300 FT MINIMUM) and CONTACT INFORMATION. Includes fields for Footage Requested, Receipt Requested, and contact details like Print Name, Phone/Cell, and Mailing Address.

PLEASE PRINT LOCATION AND ANY DETAILS IDENTIFYING THE LOCATION TO BE TREATED:
(Identify location with flags or landmarks)

Two horizontal lines for providing location details.

TERMS: A signature will be required in order to process this request:

By signing below, I understand that Montgomery County's primary responsibility is the maintenance of the road for the traveling public. Montgomery County will maintain the roadway, as it deems necessary, regardless of application of Dust Gard. This includes periodic grading.
