

This is to certify that J. Q. L. Berrag, Deputy County Surveyor for Montgomery County, State of Kansas, in pursuance of a call issued by one John Henderson, for survey of his lands lying in Section 17 Township 32 South Range 16 East, did, on the 9th day of July, 1906, mail notices to the following parties, interested or likely to be interested in the above survey - viz -

John Henderson - R. L. Madden - Wm Rowland
 Elmer Scholl - Thos. Henderson - Patrick Freeman

That on the morning of the 16th day of July, 1906, at 9:00 o'clock, at the house of John Henderson the above survey would be called.

On the day, at the hour and place appointed as above, I did call said survey, John Henderson and Wm Rowland only appearing. We began by trying to locate corner stone of Sections 16-17-20-21, but some then went to quarter post East side Section 17 and ran South 2648 ft. and then dug some more but could not find the stone and as I had no data for South line Section 16 I had to return to Independence for it so we adjourned survey until the morning of the 17th at 8 o'clock - making this 1/2 day.

On the morning of the 17th at 8 o'clock, after C. L. Bounce and C. O. Farnham were duly sworn, we went to corner Sections 15-16-21-22 and ran West 5316 (Notes give this line 36 ft. long) but found stone gone so set temporary stake, then to establish a corner went North to quarter post East line Section 17 and chained South 2648 ft. Bounce and Farnham disinterested parties, and set stone marked - 1111 - on North face and + on top. Then chained South 82°30' West, at 2654 found doubtful stone, and

River at 3311 ft. 130 ft. wide. Bounce and Henderson got boat to cross River, boat bad, but with wire 250 ft. long, crossed and set temporary stake at 3550 ft. - boat got worse - had to quit so adjourned for the day.

On Wednesday, July 18, tried all A.M. to get boat up River from jumping station but could not and so adjourned

survey until Monday, July 23 at 8:00 o'clock.

On Monday, July 23 at 8:00 o'clock - Bounce did not appear. R. L. Berrag was sworn, and we ran same line West from State at 3550 ft. 1055 1/3 ft. to River, 170 wide and to a total of 5294 2/3 (Notes give this line 147 2/3 ft. long) to corner Sections 17-18-19-20 but found no stone, then went North to corner Sections 7-8-17-18 but could find no stone after spending some time to find it. Adjourned for the day.

On Tuesday, July 24 at 8 o'clock began at corner Sections 19-20-21-22 and ran North, found River at 3385 ft. 170 ft. wide and again at 3720 ft. about 148 ft. wide, to a total of 5280 ft. finding temporary stake 48 2/3 ft. too far South. Then went West to corner of Sections 13-18-21-24 but after hunting some time could not find stone so returned to corner Sections 17-18-19-20 and spent the remaining 40 minutes trying to locate a stone and adjourned for the day.

On Wednesday, July 25, at 8 o'clock ran check line North from corner Sections 19-20-21-22 and found temporary stake 48 2/3 ft. too far South as day before and corrected, set stone - 6" casing 32" long and stake inside for Section corner. Then chained East 1820 ft. on true line between Sections 17-20 to West corner of lands of the above John Henderson on said line thence 1861 1/3 ft. to East corner of said lands thence 2113 1/3 ft. to corner Sections 16-17-20-21 to check and found correct. Adjourned for day.

On Thursday, July 26 - we chained N. 7°38' W. from 2113 1/3 ft. West of corner Section 16-17-20-21, 1640 ft. Then at about 3260 ft. W. of said Section corner we ran N. 7°38' W. 1600 ft. for a flag station then on a line of the two we ran West 1766 ft. to River leaving 82 ft. to center. Then from 1820 ft. East of corner Sections 17-18-19-20 we ran North 660 ft. and (See 128 Mark)

NOTICE - Surveyor's Permanent Record, State of Kansas.

Geo. W. Crane & Co., Printers and Binders, Topeka, Kas.
