

This is to certify that J. W. Parsons, County Surveyor of Montgomery County, Kansas, was on the 14 day of January, 1907, by W. H. Sloan ordered to make a survey of a part of section 14, Township 31, Range 15 East. On the said 14 day of January, 1907, I mailed notices to W. H. Sloan, J. Gregory, Geo. Gregory, and Geo. E. Cox that a survey would begin on the 25th day of January, 1907, at 8 o'clock a.m. and that the place of meeting would be at the residence of W. H. Sloan. The said 25th day of January, 1907, being stormy and unfit for the above survey, notices were on the 26 January 1907, mailed the above parties that the survey would be postponed until the 7th day of Feb. 1907, at 1 o'clock p.m. place of meeting same as above.

On the 7th day of Feb. 1907, I began the survey. I went to the center of section 14, there I found a stone, all parties interested in the survey being asked and each responding that he was satisfied that the stone found was the center of the said section 14. W. B. McWilliams & Thomas Reed were duly chosen and sworn as chairmen and Oscar Hadley chosen and sworn as foreman. There being timber and a branch in the direct line I desired to run, I offset to the south 128 feet variation 9° east. I ran random line east 1324 feet on 9° variation east, then offset north 128 feet above stake for temporary East 1/2 corner. I then offset 200 feet west on 9° variation east. I then ran north 659 feet on 9° variation east. Then offset east 200 feet on 9° variation east. I then ran north on 9° variation east 661 feet set stake for temporary N.E. Center 1/2 past. I then ran north 1320 feet and find that I am 8 feet south and 16 1/2 feet west of the E. 1/2 past, as agreed upon by all parties interested. I return back to the temporary N.E. Center 1/2 stake make corrections by setting on true line which I find to be 4 feet north and 8 feet 3 inches east of temporary stake at which point I plant a Linné Stone 12"x10"x8" marked + on top center. Witness, two small hickory 4 feet east 1 foot south. small Elm 4 feet 3 inches west 18 inches south, each marked X on blaze facing stone. I then return to temporary East 1/2 stake and correct same by setting north 8 feet to true line. I planted Linné Stone 24"x10"x4" with + on top center. I mark witness trees ash trees 7 feet south 10 inches diameter. Box Elder 10 feet north 16 inches diameter. I finished the survey.

This record made this 9th day of February, 1907.

J. W. Parsons
County Surveyor,

NOTICE - Surveyor's Permanent Record, State of Kansas.

Geo. W. Crane & Co., Printers and Binders, Topeka, Kas.
