

Geo. W. Crane & Co., Topeka, Kas.

This is to certify that upon an order issued by The County Commissioners of Montgomery County Kansas to relocate the S.W. Corner of the town of Liberty Kansas the same being also the S.W. Corner of Section 19 Town 33 Range 17 East, dug up and removed by The Kansas Natural Gas Company while laying a gas main that on the second day of October I began said survey and permanently located said corner as follows.  
By running a true line from the N.W. corner of said Section 19-33-17 South 5280 feet through a point 2149 feet West from the initial starting point of the Town of Liberty on Main Street as shown by the recording plat of said Town. at which point I planted a Sand Stone 7" x 13" x 24" marked IIIIII on the East side and = on the South side. The point being located in the filled in ditch and the finding of Sand stone fragments firmly unbedded in the North side of the ditch at 18" under ground shows without doubt that this point is the one where old stone stood. This stone is 5309 feet east of the Stone at the S.W. Corner of Section 24-33-16

Dated at Independence Kansas Oct 21st 1907

A. C. Killam Dep County Surveyor

NOTICE—Surveyor's Permanent Record, State of Kansas.
