

Survey No. _____, Section 34, Town 33, South, Range 17.

Geo. W. Crane & Co., Topeka, Kas.

This is to certify that I S.L. Hibbard County Surveyor of Montgomery County Kansas was ordered by Chas. Grund to Survey and Subdivide Section 34, Township 33, Range 17, East. On November 7th 1896. The following named parties were notified that a Survey of the above named Section would be made on November 17th 1896. Jno. P. Hughes, W. W. Hughes, Jno. P. Schneider, Chas. Grund, Archie E. Dodd, E. H. Fritz, H. P. Baker, L. D. Farber, Jno. P. Miller, W. A. Hanna, Frank Carl, William Crowley - On November 17th 1896, I began the Survey assisted by E. P. Bayless County Surveyor of Labette Co. In order to locate the South East Corner of Section 34, which was gone, we went to the Government $\frac{1}{4}$ post which was standing on the South line of Section 33, T. 33, R. 17, E. From this point we ran East at 2652 ft. a stake, said by all parties interested to be where the original Government corner stood. This was an old black Walnut now deeply driven in the ground. I went to the Government $\frac{1}{4}$ post on the West line of Section 34, T. 33, R. 17, E. & measured South to this supposed Government corner and found the distance to be 2694 ft. At the point where the stake was driven as the South West corner of Section 34, I set a lime stone 24x16x5 marked IIII also drove an Iron rod 4 ft long beside it. This rod has 3 notches on it as witness. From this located S.W. corner of Section 34, I ran S 88° 40' E. at 2701 drove stake on line of old N. & S. Rd. From this stake I ran South 88° 40' E. at 2701 drove stake near center of cross roads on County line as temporary S.E. corner of Section 34, T. 33, R. 17, E. From this temporary S.E. corner, I ran N. 0° 35' W. at 2757 drove stake as temporary $\frac{1}{4}$ post on East line Section 34, at 55 $\frac{1}{4}$ ft. from out 8 ft. West of Government corner. We corrected back at a point 1378 $\frac{1}{2}$ ft. S. 0° 30' E. from N.E. corner Sec. 34. Set a lime stone 20x8x6 marked X, as S.E. corner N $\frac{1}{2}$ E. $\frac{1}{4}$ Sec. 34. At a point midway between temporary S.E. corner Section 34 and N.E. corner Sec. 34 on Section line set a lime stone 23x9x6 marked $\frac{1}{4}$ for $\frac{1}{4}$ post on East line Sec. 34. At a point 1378 $\frac{1}{2}$ ft. N. 0° 30' W. from S.E. corner Sec. 34, set a lime stone 17x8x6 marked X. for S.E. corner N $\frac{1}{2}$ S.E. $\frac{1}{4}$ Sec. 34. At S.E. corner Sec. 34, set a lime stone 18x17x4 marked IIII. for South East corner Section 34 T. 33, R. 17, E. This stone is on the Township line running E & W. and on the County line running North and South. We adjourned the Survey until November 24th 1896.

November 24th 1896 I continued the adjourned Survey of Section 34, T. 33, R. 17, E. To find the center of Section 34, I went to the $\frac{1}{4}$ post on the West line of Section 34, as the Government stone was small and badly worn by wagon wheels (but still bearing the Government marks) the parties interested ordered me to put in a larger stone. And I set a lime stone 24x14x5 $\frac{1}{2}$ marked $\frac{1}{4}$ I put the Government stone beside it. also drove an Iron rod 4 ft. long. I then set flags on the $\frac{1}{4}$ posts on straight lines between them. At the intersection of these lines, I set a lime stone 28x14x6 marked XX. as the center of Section 34, T. 33, R. 17, E. for $\frac{1}{4}$ post on South line Sec. 34. I set a lime stone (this point previously located) 20x10x4 marked $\frac{1}{4}$. With a 4 ft. Iron rod driven beside it as witness. Measured distances from $\frac{1}{4}$ posts to center Sec. as shown by Plat. L. Earl and
